per pound

## M. M. SHEPHERD

Opposite the Monument  
Hendersonville, - N. C.

We sell good merchandise and guarantee you your money's worth of whatever we sell

### HENDERSON COUNTY

Events of Interest and Other Matters as Told by The Hustler's Wide-a-Wake Correspondents.

#### NEWS OF THE WEEK FROM EDNEYVILLE

(Special to The Hustler.)

Edneyville, Aug. 2.—Rev. Arledge of Folk county is holding a revival meeting at Mt. Moriah Baptist church.

We regret very much to learn of the death of Mrs. John Nesbitt who died Saturday and was buried Sunday afternoon at Mt. Moriah. Her friends and especially the husband, have our deepest sympathy.

Prof. Shille and Prof. Betsey of Hendersonville, spent Monday in this section. Prof. Betsey will open the graded school here on Monday next.

T. A. Edney of Flat Rock, visited friends and relatives recently in this place.

Otto Marlon of Spartanburg visited his sister near here last week.

Mr. and Mrs. Turner Justus of Fletcher, spent Saturday and Sunday night with their parents.

The Sunday school at Edneyville Methodist church is progressing nicely. We also have prayer services every Wednesday night and would be glad to have all who can to join us.

We are very glad to have with us Mrs. E. W. Simpson and her daughter and Misses Estella Fretwell, Madge Wallace and Edward Fretwell, all of Jacksonville, Fla. They are stopping in the ne whome of Miss Fretwell and we hope to have them with us all summer.

Mr. and Mrs. Otis Ledbetter of Marion, and Miss Ida Belle Ledbetter of Dome, are visiting relatives here.

Miss Callie Watts and her mother of Skyland, spent the week end with friends in this community.

Bryant Blanton and Miss Annie Presley were happily married last week. We wish them a long and happy life.

#### HORSE SHOE NEWS.

(Special to The Hustler.)

Horse Shoe, Aug. 2.—Born to Mr. and Mrs. Edwin Johnson Tuesday the 25th, a son.

Vivian McClain of South Carolina spent Sunday and Monday here.

Mrs. M. J. Reid had a family reunion at her home Sunday. All the children were present except Mrs. Jule Clayton, South Carolina.

Mrs. Thomas Duncan of Asheville, spent last week with his mother, Mrs. Alice Duncan.

Edwin Johnson's mother is spending some time at his home here.

#### ANGELINE WHISPERINGS.

(Special to The Hustler.)

Fletcher, Aug. 2.—Fletcher is sharing with other North Carolina resorts in the scarcity of guests, owing to the recent floods which have swept the country.

The farmers of the rural district have not been delinquent in getting the public roads ready for travel and traffic.

Misses Hortense and Alma Thorpe of Savannah, Ga., spent a week at Morris' Farm, Angeline, recently.

Mrs. Williams of Bat Cave, is visiting her daughter, Mrs. Gibbs, of Angeline.

Miss Ruth Fulcher spent her vacation at Morris' Farm, Angeline.

J. O. Johnson of Horse Shoe, visited his brother, S. E. Johnson on Sunday. He reported quite a critical condition at Horse Shoe.

Mr. Ulmer and family who have been summering at Broscoe Belle, left last week for their home in Orlando, Florida.

Mrs. A. Keppler of New Orleans, accompanied by her daughter, Miss Gladys, and her niece, Florida, are spending a month at Morris' Farm.

Eugene Carland of Asheville spent the week-end with his family, who are stopping with his parents, Mr. and Mrs. J. L. Carland, of Angeline.

#### FLETCHER ROUTE NO. 3.

(Special to The Hustler.)

Fletcher, R-3, Aug. 2.—Mrs. A. T. Hart of Tryon, has returned home after spending some time with friends here.

Mrs. Luther Anderson of Guild, Tenn., is visiting relatives in this section.

Mrs. A. B. Freeman of Hendersonville, was the guest of relatives here last week.

Mr. and Mrs. Ernest Cunningham and children have returned to St. Petersburg, Fla., after an extended visit here.

#### Early Pipe Organ Builders.

The first pipe organ in history was made by Ctesibius, an Alexandrian mechanic, about 300 B. C. According to the descriptions of old writers, it was believed to have represented a stage of efficiency not attained again until the eighteenth century. It was praised by Cicero and emperors found pleasure in playing it. History is able to record a pope as organ-builder—Sylvester II, who is believed to have constructed a hydraulic organ.

#### Pigs Are Dainty Eaters.

Pigs, instead of being ready to eat anything, are among the most fastidious animals. Out of 575 plants, the goat eats 449 and refuses 126; sheep, out of 528 plants eat 387 and refuse 141; cows, out of 494 plants, eat 276 and refuse 218; horses, out of 474 plants eat 262 and refuse 212; while pigs, out of 243 plants, eat only 72 and refuse 171.

#### Can't Get Ahead of Plumber.

"I say," asked the wrathful customer over the telephone, "what do you mean by charging me overtime in your bill? You didn't put in any overtime on my work." "Yes, I did," replied the plumber, soothingly. "On that evening when you kept me waiting while you told me what you thought of me for putting in a full day on a two-hours' job."

#### Trust the Cabmen.

I trust a cabman minister exactly as I trust a cabman. He is a man; and there is no reason to suppose he is mad. He is not generally so entertaining as a cabman; but it happens to be his business at the moment to drive the political cab, and he will not get us through the block any better because I am continually snatching at the reins.—Chesterton.

#### Height of Napoleon.

The question of the exact height of the Emperor Napoleon is one of considerable interest, and yet it is almost impossible to find any authoritative statement on the subject. In the appendix to "Napoleon; the Last Phase," by Lord Rosebery, there is a statement by Captain Maitland that he was about 5 feet 7 inches in height, and another by Mr. Bunbury that he appeared to be about 5 feet 6 inches.

#### No Rest for Mamma.

As bedtime comes and curtains fall, my irksome cares seem put to rout, as worn and weary into bed I crawl, from my household duties tired out. But, as snug between the sheets I lie, and heavy lids have ceased to wink—from baby's crib there comes a cry. "Mamma, please det me a dwink."

#### Hongkong.

Hongkong is not a part of the mainland of China, but is an island off the coast. It contains about thirty square miles, and has a population of some 300,000. The place was ceded to Great Britain in 1841. It has one of the finest harbors in the world.

#### Never Borrow Trouble.

Let us be of good cheer, remembering that the misfortunes hardest to bear are those which never happen.—Lowell.

#### Emerson is for the Future.

Humanity must receive a new and profound charge of the religious spirit before its pupilage to the waiting master (Emerson) can begin. At the present instant he is hardly in the strong sense a teacher, hardly in the strong sense an example; he is a revelation of capacity, an adjourned hope, an unassured but momentous fore-shadowing.—Professor O. W. Firkins.

#### In Nebraska in Early Days.

True cats, larger than the modern tiger, short-legged rhinoceroses, mastodons with tusks in both the upper and lower jaw and a great variety of wolflike carnivora made their home in Nebraska some years ago, or, to be exact, in the tertiary period when that state was an expanse of swampy lowland, covered with vegetation not unlike that of the Amazon wildernesses of the present day.

#### Peculiarity of Cat's Eyes.

As showing how widely the permanently blue eyes of cats differ from other eyes, it is noted that immediately the eyes of white cats that are to have permanently blue eyes open they shine bright red in the dark, and neither the ephemeral kitten-blue nor any other colored eye does this.

#### Calling the Children.

Don't shout at the children when they are out of doors and you wish them to come to the house. Call them with a small bell or whistle. The sound will go farther than the voice carries, and there will be no strain on the vocal cords.

#### Horses Affected by Shells.

The nervous shock from exploding shells is so great that it oftentimes brings horses up in their tracks, apparently incapable of moving. Horses occasionally fall down and give every appearance of having been shot, though actually unhurt. Dogs suddenly and unaccountably go lame, though untouch.

#### Eat More Vegetables and Fruit.

Fruits and vegetables furnish iron and phosphorus—and are therefore good for all people; and especially those for whom the doctor would prescribe those chemicals as tonics. Watercress, asparagus, cauliflower, lettuce, apples, onions, cherries, apricots and peaches are all rich in these elements, as are peas and beans.

#### Natural Gift.

Now comes somebody telling us that debates should be eliminated from female colleges. Oh, let 'em alone. It is a natural gift, as men know who have married noncollege girls.—Houston Post.

#### Expanding Feet.

Several negro waiters were standing at a railroad station in a southern town discussing the merits of one of their fellow craftsmen. "Dat nigger Henry sure am a hustler, but w'en he moves his feet dey look laik pancakes," said one. "Pancakes?" shouted another. "W'y man, w'en dat nigger gits good an' goin' dem feet o' his'n don't resemble no pancakes—dey's jes laik a embraller, all spread out."

#### Hops Used as a Vegetable.

Hops, which are not recognizable in the form we use them, were eaten for themselves as a vegetable by the Romans of old, and still are by the Bavarians, who choose, rather than the blossom, the tender top shoots of the plant and prepare them in much the form of an asparagus salad.—Exchange.

#### It's the L.H.

Another mystery that will probably remain unsolved until the end of time is why a new policeman who is as slim as a jackknife when he first puts his uniform on soon acquires a paunch that gives him the appearance of a dirigible balloon. — New Orleans States.

#### Small Girl Felt Safe.

The small daughter was industriously ironing her doll clothes when her mother entered. "It's wrong to work on Sunday. Have you forgotten the Lord sees you?" "This isn't work. And if the Lord does see me, he knows perfectly well this iron is cold."—Judge.

#### Greece's Petroleum Springs.

Petroleum springs in Greece, described by a historian of 400 years before Christ and viewed during the succeeding 2,300 years as nothing more than curiosities, are soon to be exploited by capitalists of the vicinity.

#### Book Agent's Palaver.

After you hear the agent talk about the books he's selling, you wonder how he can have the heart to part with them.

#### Optimistic Thought.

What is acquired without labor is seldom worth acquiring at all.

#### Seek Origin of Mysterious Fire.

Yearly on February 2 and for 45 days after, a mysterious fire breaks out in Ariyake bay on the west coast of Kyushu, Japan, burning both on land and sea, the origin of the conflagration being a complete mystery which a recently outfitted scientific exploration party will make a point of solving.

#### Modern Nail-Making Methods.

An excellent illustration of the difference between old and new methods is the ordinary common nail. Formerly the metal was cut into strips and then forged into shape with hammers, and an expert took about one minute and a half to each nail. Today they are made of steel and are lighter and stronger. Strips are cut with steam shears and fed into automatic nail machines. One man tends three machines, which drop a nail every second.

#### Taking Him Down a Little.

A somewhat conceited clergyman who was more celebrated for the length of his sermons than for their eloquence, once asked the late Father Healy what he thought of the just preached. "Well, sir," replied the humorist, "I like one passage exceedingly well." "Indeed, Father Healy, and pardon me for asking which passage you refer to?" "Well, my dear sir," replied the wit, "the passage referring to was that from the pulpit to the vestry room."

#### Shameful Ignorance.

A Philadelphia judge refused a divorce to a six-foot man on the ground that his five-foot wife was too small to be cruel. A lot he knows about women.—Detroit Free Press.

#### Just the Thing for Diarrhoea.

"About two years ago I had a severe attack of diarrhoea which lasted over a week," writes W. C. Jones, Buford, N. D. "I became so weak I could not stand upright. A druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose relieved me and within two days I was as well as ever." Many druggists recommend this remedy because they know that it is reliable. Obtainable everywhere. adv.-Aug.
